

## Curriculum Maps

We will no longer be using Atlas to maintain our curriculum maps. Our website provider, PINT, has designed a map that will allow us to capture the same information without any of the bells and whistles we weren't utilizing. A future enhancement will be to look at modifying the form to condense the topics to eliminate confusion and redundancy.

The following instructions will guide you through using the new website, please contact me if you have further questions.

Website: <http://www.prioryca.org/academics/curriculum-map/>

Click the Login link

Locate your name from the drop down menu
